Date: July 25, 2006

DECLARATION OF DENNIS M. DE GUZMAN UNDER 37 CFR § 1.131

I, Dennis M. de Guzman, hereby declare that:

1. At all times relevant to this Declaration, I was an associate at the law firm of Blakely Sokoloff Taylor & Zafman ("BSTZ").
2. I supervised Lance Termes, another associate at BSTZ, in preparing the above-identified application ("Application").
3. I was the attorney at BSTZ ultimately responsible for seeing that the Application was filed.

4. During the critical period of April 20, 2001 to June 8, 2001, Mr. Termes and I diligently prepared the Application, as evidenced by the billing records attached hereto as Exhibit A.

5. A timeline summarizing the billing records is as follows:

Date	Activity
Thursday, April 12, 2001	Mr. Termes conducts invention disclosure interview with Anthony Istvan, one of the inventors
Friday, April 20, 2001	Date of Zustak reference
Monday, April 23, 2001	Mr. Termes works on application
Tuesday, April 24, 2001	Mr. Termes continues to prepare application
Wednesday, April 25, 2001	Mr. Termes continues to prepare application
Monday, April 30, 2001	Mr. Termes continues to prepare application
Tuesday, May 1, 2001	Mr. Termes continues to prepare application
Wednesday, May 2, 2001	Mr. Termes continues to prepare application
May 2, 2001 - May 6, 2001	Mr. Termes provides draft of application to me for review.
Sunday, May 6, 2001	I review draft of application
Tuesday, May 8, 2001	Mr. Termes continues work on application; Mr. Termes sends draft to Digeo in-house counsel
Friday, May 11, 2001	Mr. Termes communicates with draftsman regarding preparation of formal drawings
Monday, May 14, 2001	Draftsman prepares drawings
May 14 - May 31, 2001	In-house counsel for Digeo reviews application and provides application to inventors for review
Friday, June 1, 2001	Mr. Termes receives feedback from in-house counsel; Mr. Termes revises application and coordinates with draftsman re preparation of additional formal figures
Monday, June 4, 2001	Mr. Termes receives feedback from Robert Novak, one of the inventors; Mr. Termes revises application based on those comments
Thursday, June 7, 2001	Mr. Termes receives email from in-house counsel regarding additional changes to application; Mr. Termes revises the application accordingly
Friday, June 8, 2001	Date of constructive reduction to practice

6. With regard to the short periods of time for which no billing records exist (i.e., April 26-27, May 3-4, May 14-31, June 5-6), these "gaps" were attributable to (1)

previously-assigned work from other clients, (2) preparation of formal drawings, and (3) inventor and in-house counsel review, including multiple drafts.

7. With regard to the work for other clients, Lance Termes and I had a quarterly allotment of applications from Intel Corporation ("Intel") that needed to be filed before the end of the quarter (*i.e.*, by end of June 2001).

8. In the quarter in question (*i.e.*, April 2001 – June 2001), we would likely have been assigned six Intel cases between the two of us, which we would have needed to complete and file by the end of June 2001. Moreover to the best of my recollection, we would most likely have been working on other (non-Intel, non-Digeo) cases as well that needed to be prepared and/or filed in that time frame. Still further to the best of my recollection, we would also have been working on other Digeo cases that needed to be filed by the end of June 2001.

9. While I do not have my non-Digeo time records for that time period, I believe that Lance Termes and I were working on at least Intel applications that were assigned prior to the above-identified application.

10. For example, I believe that the April 26-27 and May 3-4 dates were consumed with preparing drafts of the Intel applications in order to have them filed by the end of the quarter, and/or were consumed with preparing draft applications for non-Intel and non-Digeo applications and/or for other Digeo applications.

11. I was forced to perform my supervisory review of the Application on a weekend due to the large amount of other work that I had at the time.

12. With regard to the May 14-31 timeframe, Lance and I were waiting for feedback from the inventors, as well as Digeo's in-house counsel. Waiting for a few weeks for comments is not unusual for the clients I have represented. Indeed, given the

number of cases Digeo was filing at the time, I believe that a two-week review period was entirely reasonable.

13. I declare that those statements made of my own knowledge are true, and that all statements made on information or belief are believed to be true. This declaration is being made knowing that willful false statements and the like are punishable by fine or imprisonment, or both (18 U.S.C. § 1001) and may jeopardize the validity of the application or any patent issuing thereon.

Dennis M. de Guzman
